Dear Hiring Manager,

I am writing to express my interest in the Internship in your company. With a solid foundation in software development and a strong passion for technology, I am eager to contribute my skills to your esteemed organization. I am currently pursuing a Bachelor of Technology (B. Tech) at B.N. College of Engineering Institute & Technology, with an expected graduation date in 2025.

During my academic journey, I have gained valuable experience through various projects. As a Software Developer, one of my notable projects involved developing a web application that leverages the WebRTC protocol, Google Firebase as a signaling server, and Chromium Tab sharing protocol to allow screen sharing with audio, which enables the ability for folks to catch up and enjoy music and videos together despite the distance. In addition to my technical skills, I have a strong background in graphic design, having served as a Graphic Designer for my college magazine. This role required creativity, attention to detail, and the ability to work under tight deadlines. Furthermore, my leadership experience as a Coordinator for the College Technical Club and my involvement in organizing various technical events have equipped me with excellent organizational and teamwork skills. I am confident that my analytical, collaborative, and adaptable nature, combined with my in-depth knowledge of multiple technology stacks, will make me a valuable asset to your team. I am eager to bring my expertise to a new and exciting challenge at your Company and contribute to the continued success of your organization.

Thank you for considering my application. I look forward to the possibility of discussing how I can contribute to your team and am available at your earliest convenience for an interview.

Sincerely,

Aryan Dixit
